PROFESSIONAL SUMMARY

Results-driven AI/ML Engineer and B.E. Artificial Intelligence & Data Science graduate (University of Mumbai, 2026) with hands-on experience in Machine Learning, Deep Learning, Computer Vision, Predictive Modeling, and Data Analytics. Proficient in Python, TensorFlow, Keras, Scikit-Learn, OpenCV, Pandas and NumPy; skilled in end-to-end ML pipelines, feature engineering, CNN architecture, model evaluation, and AI application deployment. Experienced integrating Generative AI and LLM capabilities into production products. Targeting roles as AI Engineer, Machine Learning Engineer, or Generative AI Engineer.

TECHNICAL SKILLS

ML & AI -	Machine Learning, Deep Learning, Neural Networks, CNN, Classification, Regression, Predictive Modeling, Feature Engineering, Model Evaluation, Hyperparameter Tuning
Data Science -	EDA, Statistical Analysis, Data Preprocessing, Data Visualization, Pandas, NumPy, Scikit-Learn
Languages -	Python, JavaScript (ES6+), C++
DL Frameworks -	TensorFlow, Keras, OpenCV, Streamlit
Generative AI -	LLM Integration, Prompt Engineering — ChatGPT, Claude, Cursor
Databases -	MongoDB, MySQL
Web Tech -	React.js, Next.js, Node.js, Express.js, REST APIs, JWT Auth, Tailwind CSS
Tools -	Git, GitHub, VS Code, Vercel, Render, Google Colab, Postman

PROJECTS

PadleGuru — AI-Enabled Full Stack Learning Platform — React.js · Next.js · Node.js · Express.js · MongoDB · JWT Auth · REST APIs · Vercel · Render

- Architected and deployed an AI-enabled educational platform using MERN stack with Next.js SSR for SEO-optimized content delivery and 99%+ production uptime.
- Engineered 15+ intelligent REST API endpoints enabling data-driven user interactions and third-party AI service integration; deployed on Vercel and Render.
- Implemented JWT-based authentication with bcrypt hashing, demonstrating secure AI application deployment and full product lifecycle ownership.

PlaceReady AI — ML-Powered Placement Predictor — Python · Logistic Regression · Scikit-Learn · Feature Engineering · Model Evaluation · Streamlit

- Developed end-to-end machine learning pipeline for student placement binary classification using Logistic Regression on 6 engineered skill parameters.
- Applied feature engineering, data preprocessing, normalization, and hyperparameter tuning; deployed as live Streamlit AI application for real-time predictive modeling.

Deepfake Detection — CNN-Based Computer Vision System — Python · TensorFlow · Keras · CNN · OpenCV · NumPy · Data Augmentation

- Designed and trained a CNN (Convolutional Neural Network) for real vs. AI-manipulated video frame classification using TensorFlow/Keras and Computer Vision.
- Built full data preprocessing pipeline: OpenCV frame extraction, pixel normalization, and data augmentation for robust model generalization and high classification accuracy.

GeoSentrixAI — Geospatial AI Flood Prediction System — Python · Machine Learning · GIS · Geospatial AI · Predictive Analytics · JavaScript

- Developed an AI-driven geospatial intelligence platform applying machine learning and spatial data analysis for flood risk predictive modeling supporting early disaster response.
- Designed geospatial ML pipelines processing terrain and environmental features; visualized dynamic risk maps via interactive JavaScript frontend.

INTERNSHIPS

Data Analytics Job Simulation Intern | Deloitte Forage (Virtual) Apr – May 2025

- Performed EDA and statistical data visualization on real business datasets; delivered data-driven analytical insights aligned with business decision-making objectives.
- Produced professional analytical reports simulating a data analyst workflow at a Big 4 consulting firm.

Python Programming Intern | Virtual Internship Jan 2025

- Strengthened core Python programming skills — data structures, functions, file I/O — foundational to ML and data science workflows.

EDUCATION

B.E. — Artificial Intelligence & Data Science | University of Mumbai | SGPI: 7.64 / 10 2022 – 2026

CERTIFICATIONS & ACHIEVEMENTS

- Oracle OCI 2025 — Certified DevOps Professional (Valid: Aug 2025 – Aug 2027)
- Oracle OCI 2025 — Certified AI Foundations Associate (Valid: Aug 2025 – Aug 2027)
- Google/Coursera — Foundations: Data, Data, Everywhere | Internshala — Programming with Python | IBM — Python 101 for Data Science
- Smart India Hackathon — Top 20 (College Level) | Led Team Hydroguardians delivering GeoSentrixAI — an AI flood prediction system — in a 24-hour competitive build challenge.
